

# Anweisung an das Laboratorium

(Bitte bei ASVG-Versicherten die Kassen-Überweisungsscheine verwenden)

Name des Patienten:

SV.Nr. / Geburtsdatum:

Anschrift:

Krankenkasse (Verpflegungsklasse):

Diagnose / Medikation:

Datum:

Stempel und Unterschrift  
des zuweisenden Arztes

- Vollblut
- Serum
- Natrium-Citrat-Blut
- EDTA-Blut
- Natrium-Fluorid-Blut
- Lithium-Heparinat-Blut
- Harn, Stuhl, Rachenabstrich
- Homocystein

- |                                                             |                                                          |                                                                                                                                                                  |                                                                  |                                                                                                                                                         |
